EMPLOYMENT  
CONFEDERATION**  
The Voice of Labour Market Enablers

# Safely Back to Work Best Practice Protocols

June 2020

## **Context & Objectives**

Safely back to work

Examples of safe & next work solutions

Industry Examples in Practice

Appendix: Overview of measures in checklist

# Enabling workers to return to work safely

The COVID-19 health crisis and continued lockdown in many markets is posing **unparalleled challenges** to people and economies around the world

To limit the economic downturn and impact on people's ability to earn a living, the labor market and all its stakeholders must **quickly adjust** to a new reality

The alliance of HR services industry players, launched by Randstad NV, the Adecco Group and ManpowerGroup on April 16, **pledges to** apply their collective experience, fostering connection between the various stakeholder groups and supporting the sharing of best practices

Best Practice Health and Safety Protocols contains >100 **collected measures** in their markets. These measures **can help to complement** country and sector specific protocols. Industry bodies, unions, employers, governments, healthcare authorities and others **can help shaping these protocols**

## Disclaimer

*This document is a summary of relevant provisions which we believe have been implemented and have not been independently verified. Care should be taken with how the content is to be implemented in each case to ensure that all applicable laws and regulations and (local) government guidance are observed.*

# Overview of categories in the best practices checklist

Details next page

## Control level

**Levels of Control - adapted based on NIOSH's (National Institute for Occupational Safety and Health) Hierarchy of Controls, which is grounded in Safety management Systems such as the ISO 45001 and ANSI 1-10 models**

Elimination - physically remove the hazard e.g. do not work

Substitution - replace the hazard e.g. work from home

Engineering controls - isolate people from the hazard e.g. arrange access point controls

Administrative controls - change the way people work e.g. enable sanitation with hand sanitizers

Personal protective equipment - protect the worker with PPE e.g. provide face masks

## Measure categorization

### Type of measure

Personal - safety instruction which a person can do him/herself

Inter-relational - with regard to interacting with others

Organizational - with regard to business facilities, rooms as well as organization such as planning shifts of personnel

Machines - with regard to machines, technical installations etc.

Compliance - with regard to checking whether measured are followed-up on

### Industry

The industry for which this protocol measure is important/relevant

### Country

The country (or region within) for which this protocol measure is important/relevant

### COVID policy and source

The policy that was enforced by a government or another institution (e.g., sector organization), which is the main reason why a measure needs to be put in place. This will support us in identifying what measures need to change when policies are tightened and/or alleviated

## Measure description

### Topic name

A topic name for the measure

### Measure

The preventive measure to be taken to mitigate the H&S risk and in line with the obliged policy

### Work situation

A situation related to work for the which the measure is valid

### Effect measurement

The aspired effect of the measure and how this can be measured (e.g., no infections within a shift, to measure by the number of reported cases)

### Work instructions

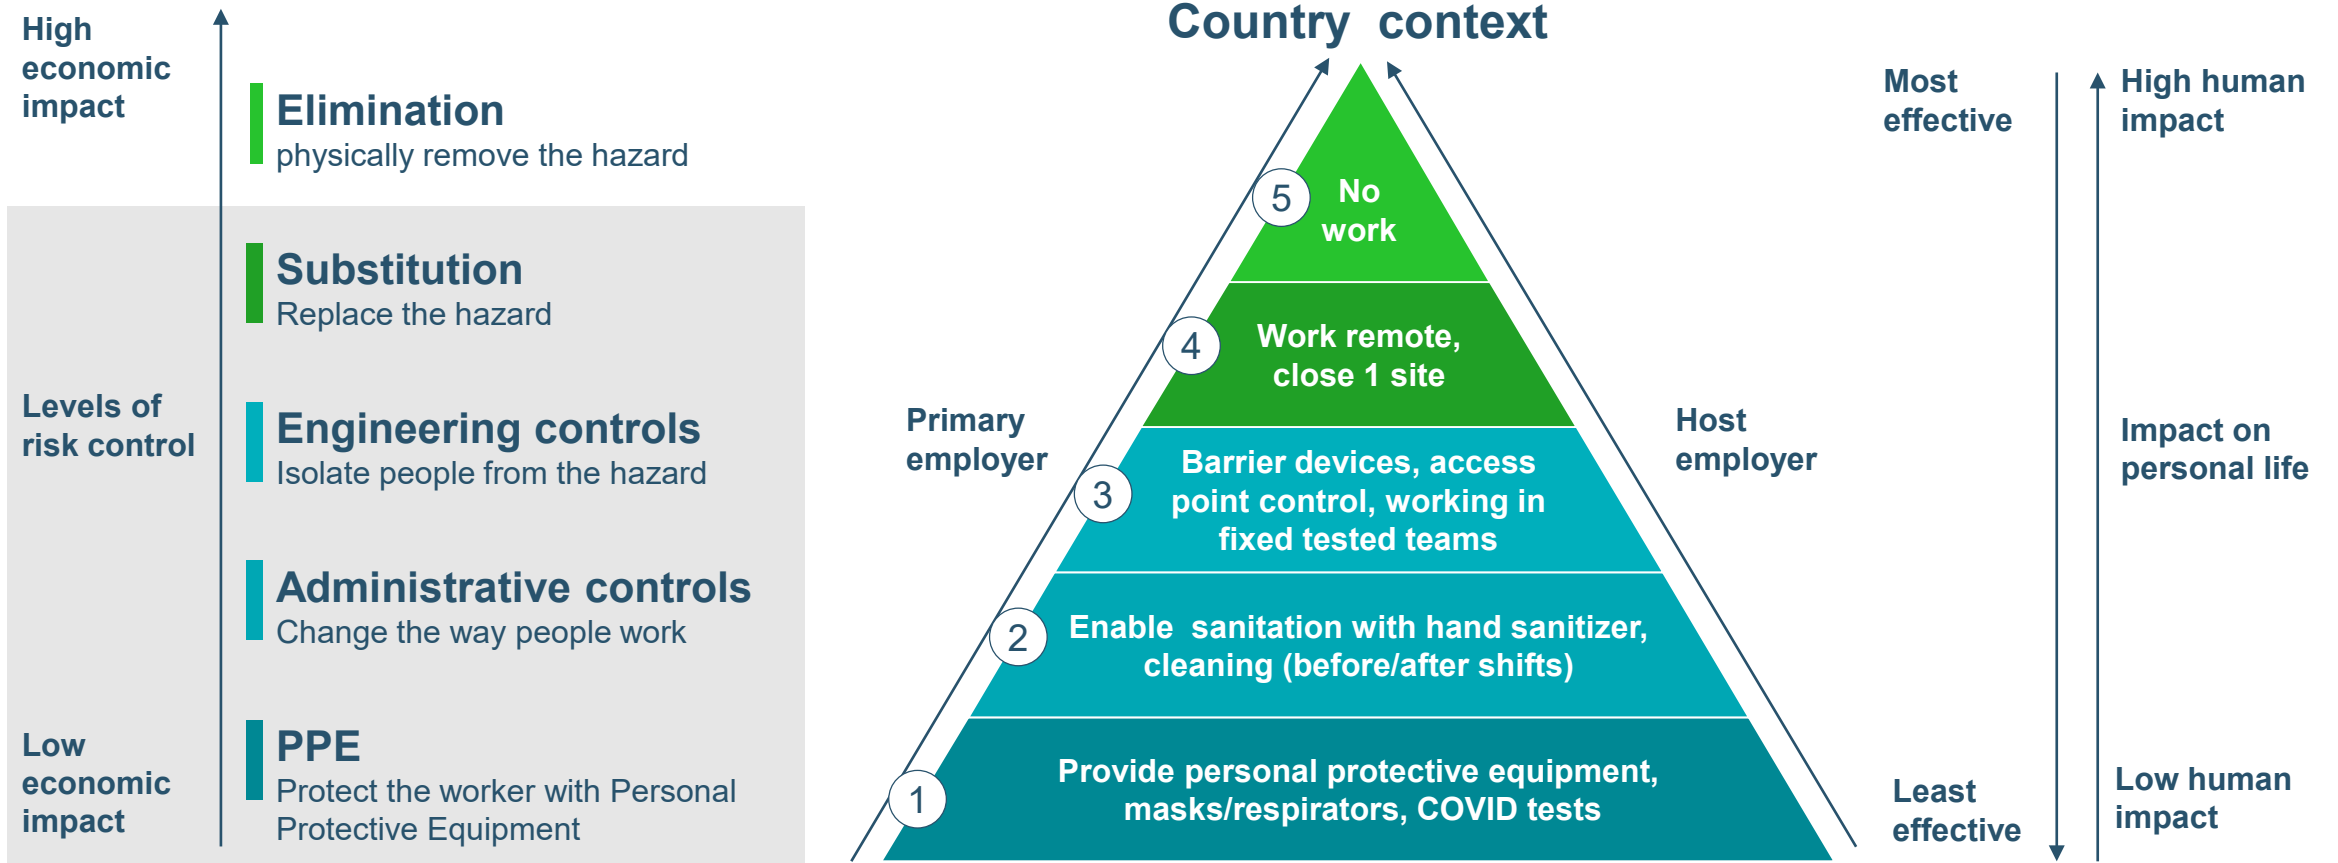

How to put the preventative measure into action at work; a practical and clear, the "how to"

### Infrastructure requirements

Any items that are required to make the work instructions happen

# Levels of Control to categorize the measurements

**Share sector/ country practices:** achieving acceptable levels of risk as well as limiting economic impact

Adapted based on NIOSH's (National Institute for Occupational Safety and Health) Hierarchy of Controls

# How a COVID-19 health & safety protocol can address the various risks at the workplace

Level of risk control	Canteen and / or breaks measures a company could consider to adopt
<b>Elimination</b> physically remove the hazard	n/a
<b>Substitution</b> Replace the hazard	Instruct employees not to congregate in breakrooms/canteens for their breaking time
<b>Engineering controls</b> Isolate people from the hazard	Identify dedicated eating areas on site and ask employees to bring prepared meals and refillable drinking bottles from home
<b>Administrative controls</b> Change the way people work	Set up lunch / breaks shifts (by teams) with staggered start and finish times to guaranty physical distancing during lunch time and / or breaks
<b>PPE</b> Protect the worker with Personal Protective Equipment	Install temporary disposable cardboards or plastic separators in lunch rooms and common areas

Context & Objectives

**Safely back to work**

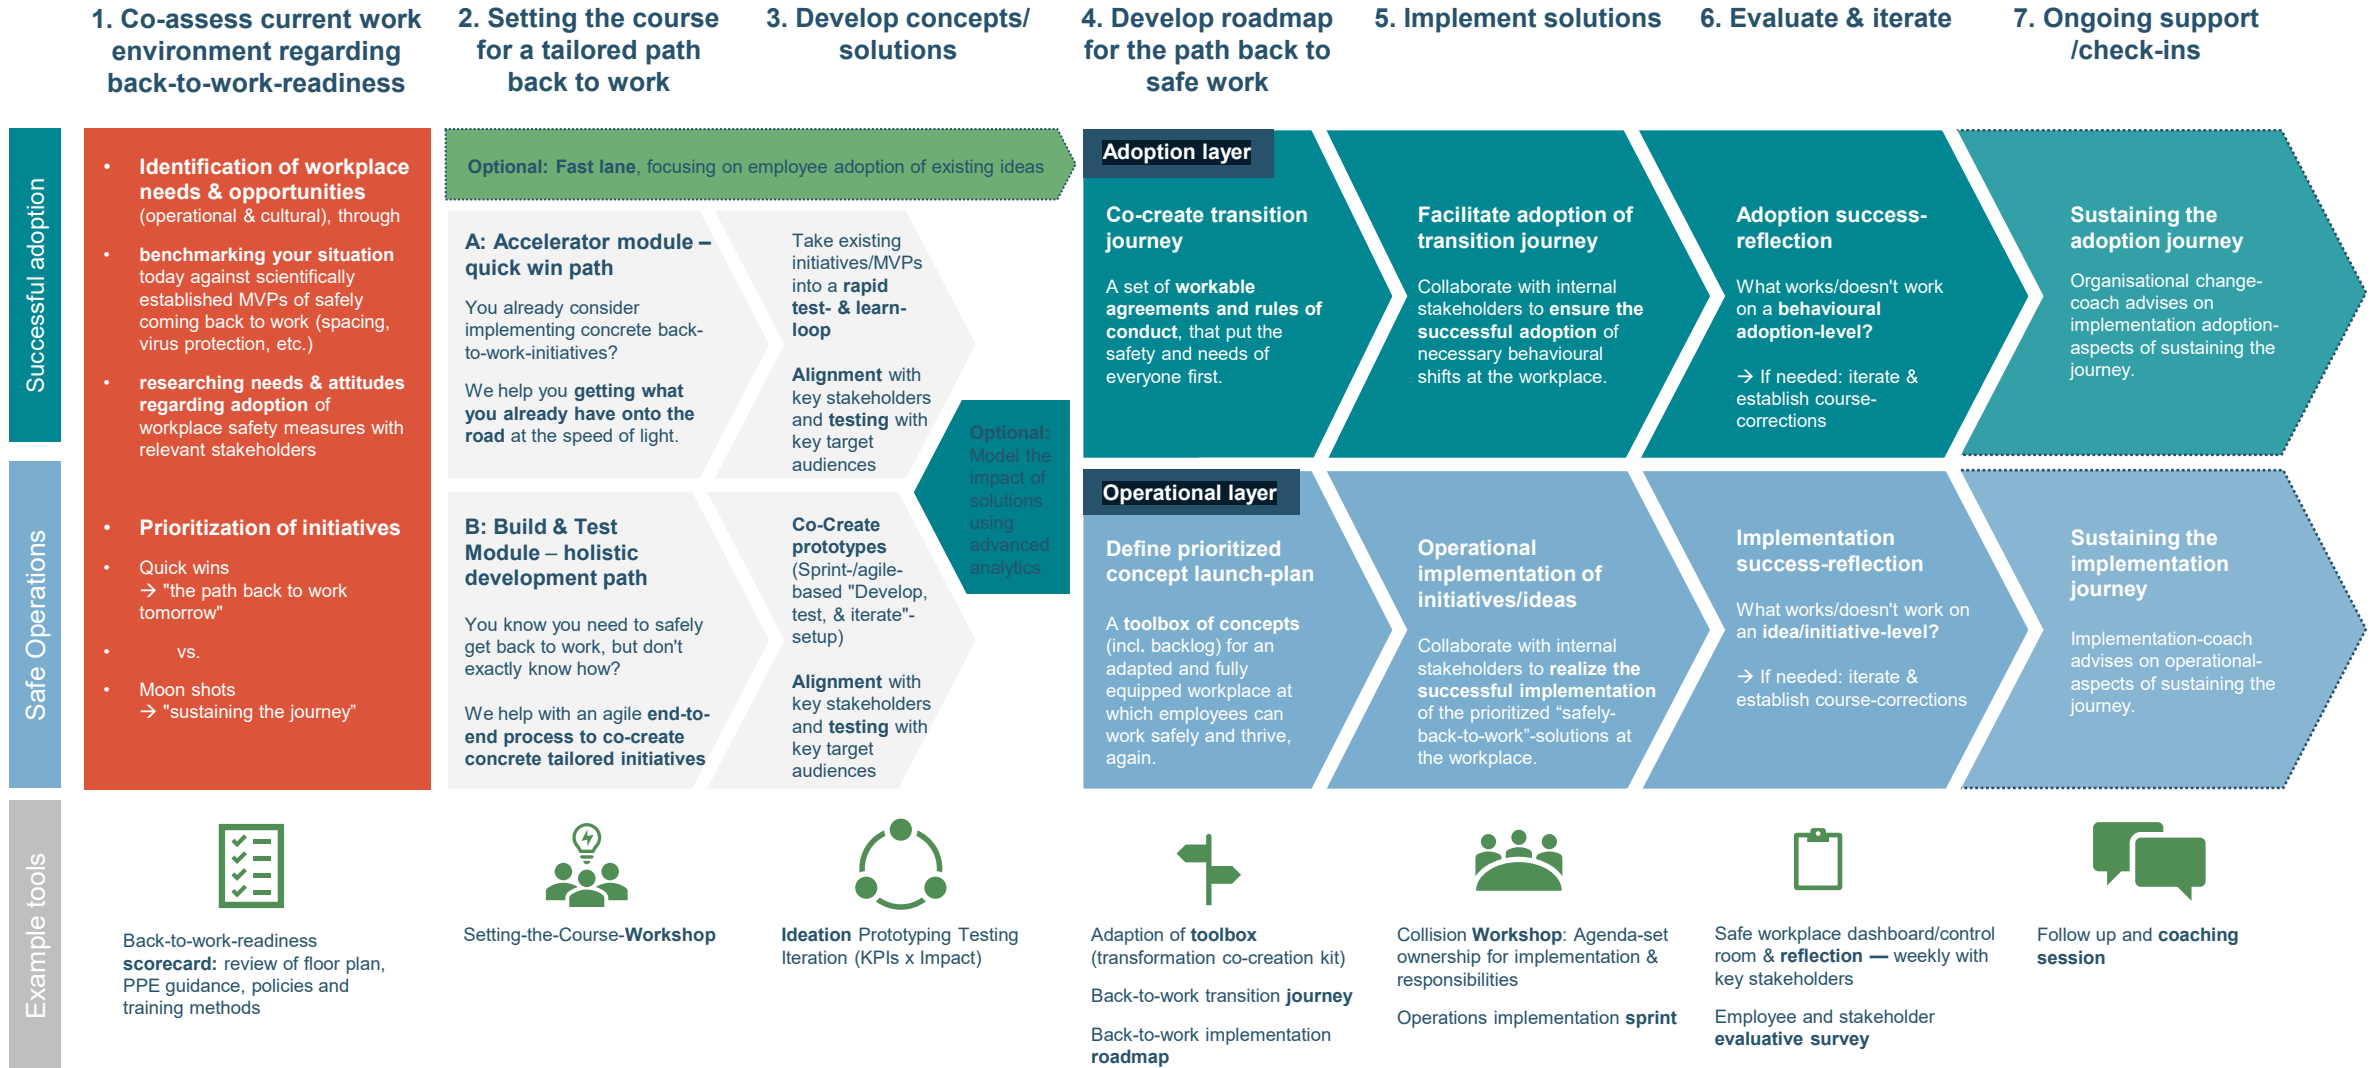

Examples of safe & next work solutions

Industry Examples in Practice

Appendix: Overview of measures in checklist

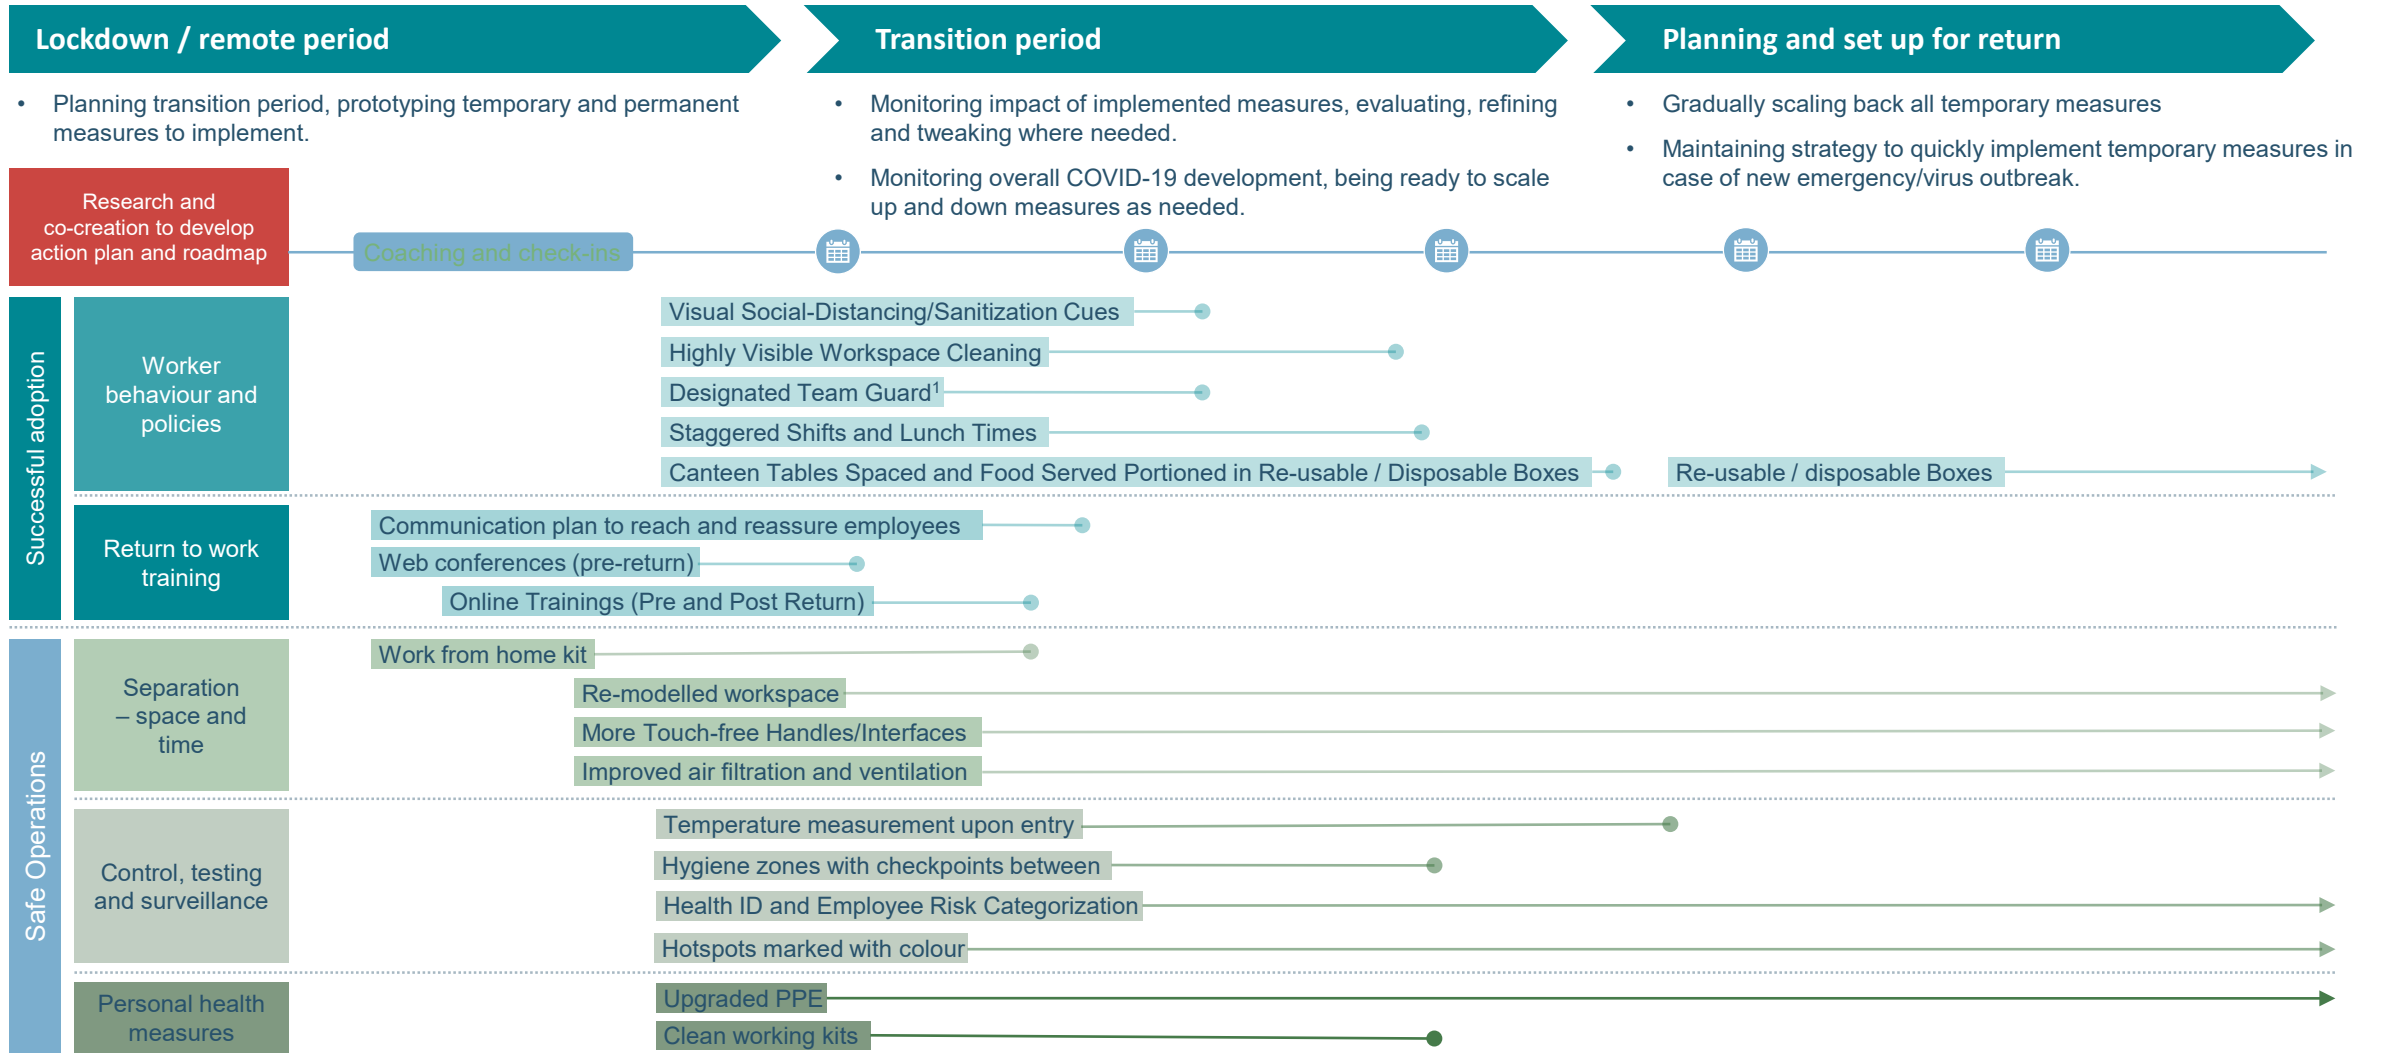

# Approach for getting Safely Back to Work

 Focus of this document

# Example of the journey to implement a “Safely Back to Work” Action plan

1. To ensure any new hygiene standards are maintained and to provide workers with a voice in maintaining these standards

Source: McKinsey article: Europe needs to prepare now to get back to work —safely, team analysis and press search

Context & Objectives

Safely back to work

**Examples of safe & next work solutions**

Industry Examples in Practice

Appendix: Overview of measures in checklist

# Re-modeling/Re-tooling of the workplace

- Ensuring greater spacing between employees/functions/cubes

Illustrative

Local governmental rules and decisions should always be followed carefully

Factory

Office

## Concept Description

Lines, offices and cubes could be redesigned or re-tooled to provide for greater spacing between employees and reduce the risk of contamination between functions.

## Impact

- This may help to reduce the spread of any infection
- May also provide compartmentalisation of the organisation in the event of a wider spread allowing the maintenance of some company functions.

# Improved Air Filtration & Ventilation

- More efficient removal of hazardous particles from the environment

Illustrative

Local governmental rules and decisions should always be followed carefully

Factory

Office

## Concept Description

Workplace ventilation and filtration could be improved to reduce any hazardous particles which may be airborne.

## Impact

- Reduces the concentration of airborne viral or bacterial particles which may help to reduce the likelihood of worker infection

# More Touch-free Handles/Interfaces

- Fewer handles and physical interfaces and introduce motion control

Illustrative

Local governmental rules and decisions should always be followed carefully

Factory

Office

## Concept Description

Greater use of motion-control or touchless doors and interfaces throughout the workspace.

## Impact

- It can reduce the risk of workers contacting a contaminated surface.
- Could help reduce cleaning requirements

# Visual Social-distancing/Sanitization Cues

- Providing quick checks/reminders to maintain distancing and hygiene

Illustrative

Local governmental rules and decisions should always be followed carefully

Factory

Office

## Concept Description

Visual cues such as markings or projections on the floors, walls and interfaces could indicate to workers of safe distances and provide reminders as to when they should change PPE<sup>1</sup> or wash their hands as the go through the working environment.

## Impact

- May Increases the frequency with which employees wash their hands
- Increases employee awareness of hygiene

1. E.g., paper tissues could be provided to press photocopier buttons

# Staggered Shifts and Lunch Times

- Employee shifts and breaks can be staggered to prevent queues and crowds

Local governmental rules and decisions should always be followed carefully

## Concept Description

Easy and clear instruction about work shifts and breaks could be provided (e.g., where employees should sit and for how long they can be in the breakroom/canteen)

## Impact

- Can help reduce queues and crowds, especially relevant if screening measures are introduced requiring more time to pass through.
- Could make it easier for workers to maintain social distance.

# Canteen Tables Spaced and Food Served Portioned in Re-usable / Disposable Boxes

- Serving pre-packed food in re-usable boxes

Illustrative      Local governmental rules and decisions should always be followed carefully

**01** Canteen tables spaced

**02** Pre-portioned re-usable / disposable boxes

**03** Food trucks in summer season

## Concept Description

Replace self-service style lunches from canteen with catered, portioned food in re-usable / disposable boxes. This could take the form of food trucks during summer months to get the workforce into fresh air.

Canteen tables could ensure spacing between employees so no-one sits directly beside or in front of the worker. (via checker-board arrangement). Strict cleaning procedures need to be in place.

## Impact

- May help to reduce queues and physical contact between workers

# Hygiene Zones with Checkpoints Between

- Workspace separated into zones with mandatory sanitization between each

Illustrative

Local governmental rules and decisions should always be followed carefully

Factory

Office

## Concept Description

The workplace could be separated into various zones with mandatory sanitization between each and recording of who is moving between each zone.

## Impact

- Increases the frequency with which workers must wash hands/change PPE.
- Provides an indicator of which zones are most at risk of infection and enables contact tracing

# Highly Visible Workspace Cleaning

- Confirmation of cleaning is displayed confirming cleanliness of workspace

Local governmental rules and decisions should always be followed carefully

Factory

Office

## Concept Description

Cleaners should update a 'confirmation of cleaning' list or display in a highly prominent location upon completion of cleaning.

## Impact

- Instils confidence in workers that the workspace is clean and well maintained.

# Hotspot Surfaces Marked with Colour

- Frequently contacted surfaces highlighted and prioritized for cleaning

Illustrative

Local governmental rules and decisions should always be followed carefully

Factory

Office

## Concept Description

Surfaces that are frequently contacted by workers could be brightly colour-coded as a reminder to cleaning staff to ensure they are effectively sterilized and a visual cue to workers to wash hand or change PPE.

## Impact

- Increases employee awareness of surface contact and hygiene
- Provides greater direction to cleaning staff

# Clean Working Kits

- Each employee has a personal kit of cleaning essentials i.e. alcogel, wipes...

Illustrative

Local governmental rules and decisions should always be followed carefully

Factory

Office

## Concept Description

Each employee could be issued with a personal “Clean Working Kit” which would include items such as alcogel, sanitary wipes and PPE disposal bags.

## Impact

- This could help to ensure each employee has the tools they need to maintain good personal and workplace hygiene.

# Designated Team Guard

- A team member who ensures new standards are being followed

Illustrative

Local governmental rules and decisions should always be followed carefully

Factory

Office

## Concept Description

To ensure any new hygiene standards are maintained and to provide workers with a voice in maintaining these standards, a Team Guard could be appointed.

## Impact

- This Team Guard would be responsible for ensuring their team have what they need in terms of knowledge and equipment to maintain personal and workplace hygiene.

# Printed Media Campaign

## Illustrative

Local governmental rules and decisions should always be followed carefully

Factory

Office

## Concept Description

Leveraging printed media to inform employees about the changes they can expect when returning to work.

## Impact

- Can increase transparency and give clarity about current situation and the way that it is handled
- Could increase mental and emotional preparedness of staff upon return to work

An information and learning campaign comprised of printed info packs

# Web Conferences (Pre-Return)

- A series of web conferences to keep workers informed throughout process Local governmental rules and decisions should always be followed carefully

Illustrative

## Concept Description

Gathering employee groups to video conferences where they can get the latest information from their employer. Allowing questions and concerns to be raised prior or during call.

## Impact

- Helps keep everyone up to date
- Can enforce transparency and trust within organisation

# Online Trainings (Pre and Post Return)

- Online learning courses providing latest info. to prepare workers for return

Local governmental rules and decisions should always be followed carefully

Illustrative

Factory

Office

## Concept Description

These online training sessions may form a part of a larger series preparing the worker to return to the site. Beginning in their home and continuing for a time after return

## Impact

- Can be deployed within the workers home (pre-return) or on-site (post-return)
- Can be tailored to match workers preferred learning style
- Can be gamified to provide learning incentives
- Can provide continuity across the pre and post return horizons

# Large Format Visual Displays in Workplace

- Prominent displays highlighting new processes, policies, tools and layouts
  - Local governmental rules and decisions should always be followed carefully

Factory

Office

## Concept Description

Large format posters or digital displays providing prominent, frequent reminders to employees of the new workplace situation and (crucially) the rationale behind it.

## Impact

- Large format should make the messaging “unmissable”
- Simple messaging can be delivered in an highly accessible way
- Can be deployed standalone or part of a wider messaging strategy

Context & Objectives

Safely back to work

Examples of safe & next work solutions

**Industry Examples in Practice**

Appendix: Overview of measures in checklist

# Manufacturing safeguarding measures - overview

Theme	Safeguarding measures
i <b>Workforce protection</b>	Travel / movement to work (incl. work from home measures)
	Entry to worksite
	Employee health policy measures
ii <b>Employee protection</b>	Personal protective equipment
	Workplace distancing and workstation barriers
	Sanitization measures
	Worksite facility conditions
	Public health knowledge and capability-building
iii <b>Non-employee protection</b>	Social distancing measures
	Sanitization measures
	Limitations against exposure to individuals
	Preventions against material contamination
iv <b>Business process adaptations</b>	Physical workspace adaptations
	Digital workspace adaptations (incl work from home measures)
	Operational and productivity process adaptations
	Communication and continuous improvement adaptations
v <b>Employer-led public health interventions</b>	Detection and tracing
	Personal behavior reinforcement
vi <b>Industry-wide safeguards</b>	Governance and councils
	Standards and protocols

**These examples are broadly applicable to working environments in Manufacturing**

- Assembly line
- Build-in-place
- Small job shop
- ...

# Manufacturing safeguarding measures

**PRELIMINARY**  
**NON-EXHAUSTIVE**

Local governmental rules and decisions should always be followed carefully

i

Workforce protection	Protection area	Considerations <sup>1</sup>
	<b>Travel / movement to work (incl. work from home measures)</b>	<ul style="list-style-type: none"> <li>• Provide dedicated transportation for all employees with social distancing (50% capacity) and sanitize vehicle after use</li> </ul>
	<b>Entry to worksite</b>	<ul style="list-style-type: none"> <li>• Establish controlled means of entrance (single point, multiple entrances, etc.)</li> <li>• Separate points of entry and points of exit</li> <li>• Establish sign-in stations or check points restricting access to employee workstations / production areas</li> <li>• Ensure controlled measures to minimize visitor/contractor access to facility when entering property (escorted, PPE requirements)</li> <li>• Limit visitors/contractors entry unless necessary to production</li> <li>• Visitors/contractors to fill out health questionnaire prior to entering facility</li> <li>• Install hand sanitizing stations at entrances and in common areas</li> <li>• Select list of people allowed to work based on strict criteria (e.g., age profile, previous medical history, etc.)</li> <li>• Suspend fingerprint-entry keypad</li> <li>• Arrival times staggered by 10-minute intervals over 1-2 hours to reduce congregation on entry and exit</li> <li>• Staggered breaks to reduce large group gatherings</li> </ul>
<b>Employee health policy measures</b>	<ul style="list-style-type: none"> <li>• Mandatory 14-day quarantine in case person identified as high risk</li> </ul>	

1. Aggregation from case studies across different countries and US states. Please consider the list as examples of actions; level of importance to contamination containment have not been assigned and is up to client and state/federal public health regulations and recommendations

# Manufacturing safeguarding measures

**PRELIMINARY**  
**NON-EXHAUSTIVE**

Local governmental rules and decisions should always be followed carefully

ii

Employee protection	Protection area	Considerations <sup>1</sup>
	<b>Personal protective equipment</b>	<ul style="list-style-type: none"> <li>• Ensure gloves, masks and goggles for employees on the shop floor</li> <li>• Designate at least one person to track usage of PPE and one person per team to procure PPE</li> </ul>
	<b>Workplace distancing and workstation barriers</b>	<ul style="list-style-type: none"> <li>• Create operating “pods” (~2 employees per pod) in a production line, divided by physical barriers</li> <li>• Air-gap connected workspaces, with a “clean room” to allow employees to sanitize</li> <li>• Ensure commercial drivers' access is limited to shipping area and separate from staff</li> <li>• Increase hygiene protocols for shipping/receiving areas - PPE requirements and enhanced cleaning</li> <li>• Minimize physical presence of non-core workers</li> <li>• Postpone large group training or on-site visits; set up virtual training or on-site visits</li> </ul>
	<b>Sanitization measures</b>	<ul style="list-style-type: none"> <li>• Enhanced sanitization of all common areas and of common touch points (doors, stairwell handles, light switch, elevator switch, etc.)</li> <li>• Procure increased amounts of soap, hand sanitizer, cleaning materials and equipment</li> <li>• Designate one person per shift whose sole job is to clean surfaces</li> <li>• Staggered sanitation breaks for mandatory hand washing</li> </ul>
	<b>Worksite facility conditions</b>	<ul style="list-style-type: none"> <li>• Set up an infrared video camera; Use of UV light lamps to sanitize work area and equipment</li> <li>• Ventilation per OSHA guidance</li> <li>• Reduce high touch surfaces (e.g., prop open bathroom doors); Apply copper tape onto high-touch surfaces that can't be avoided. New England Journal of Medicine study found that COVID survives on copper surfaces the least amount of time, 4 hours</li> <li>• No-touch trash bins/ waste receptacles</li> </ul>
<b>Public health knowledge and capability-building</b>	<ul style="list-style-type: none"> <li>• Use promotional programs around hand washing and other best practices ("Do the 5")</li> </ul>	

1. Aggregation from case studies across different countries and US states. Please consider the list as examples of actions; level of importance to contamination containment have not been assigned and is up to client and state/federal public health regulations and recommendations

# Manufacturing safeguarding measures

**PRELIMINARY**  
**NON-EXHAUSTIVE**

Local governmental rules and decisions should always be followed carefully

iii

Protection area	Considerations <sup>1</sup>
<b>Social distancing measures</b>	<ul style="list-style-type: none"> <li>• Limit use of common dining area/ cafeteria (e.g. group orders delivered to site, designated seating areas)</li> <li>• Limit number of people within elevator (1 person per at a time or at 50% capacity)</li> <li>• Physical ring fencing by re-organizing into cellular layouts across buildings in facility</li> </ul>
<b>Sanitization measures</b>	<ul style="list-style-type: none"> <li>• Enhanced sanitization of common touch points (doors, stairwell handles, light switch, elevator switch, etc.)</li> <li>• Regular disinfection of high-touch surface areas (e.g., door handle, light switch, common tools)</li> </ul>
<b>Limitations against exposure to individuals</b>	<ul style="list-style-type: none"> <li>• Facility will disclose infection to state DOH bodies and follow processes in line with health department guidelines</li> <li>• On detecting positive infection, consider mandatory shutdown for full deep-sanitation and testing for staff (at minimum for those in close proximity to detected case/s)</li> </ul>
<b>Preventions against material contamination</b>	<ul style="list-style-type: none"> <li>• Enhanced hygiene protocols for shipping/receiving areas</li> <li>• Consider 2-step inventory model               <ul style="list-style-type: none"> <li>— Designated space for warehousing new inbound inventory, quarantined for 24 hours</li> <li>— Move inventory after 24 hours into “safe for use” warehousing space for use by facility</li> </ul> </li> </ul>

Non-employee protection

# Manufacturing safeguarding measures

**PRELIMINARY**  
**NON-EXHAUSTIVE**

Local governmental rules and decisions should always be followed carefully

iv

Business process adaptations	Protection area	Considerations <sup>1</sup>
	<b>Physical workspace adaptations</b>	<ul style="list-style-type: none"> <li>• Reduce seating in breakroom / common areas to ensure &gt;6ft physical distance</li> <li>• Designate rooms to quarantine individuals until health officials are contacted / individual can safely return home or to a health facility, making sure to deep clean after use</li> <li>• Park vehicles one spot away from each other, where feasible</li> <li>• Mark designated areas with physical markers to reinforce compliance with measures</li> </ul>
	<b>Digital workspace adaptations (incl work from home measures)</b>	<ul style="list-style-type: none"> <li>• Require non-core functions to work from home until further notice</li> <li>• Divided critical function teams with groups alternating work in-office or using satellite sites</li> <li>• Digitize shift handovers and group discussions within facility</li> </ul>
	<b>Operational and productivity process adaptations</b>	<ul style="list-style-type: none"> <li>• Mandatory hand washing every 2 hours, installation of additional hand sanitization and soaps in toilets and common areas</li> <li>• Shift work for white collar workers as well as for blue collar workers. Increase number of shifts, including spreading work over the weekends</li> <li>• Staggered breaks to reduce large group gatherings</li> <li>• Avoid meetings of more than 5 participants; obligatory face mask during face-to-face meetings</li> <li>• Signaling to alert employees before a maintenance event, allowing teams to social distance before beginning maintenance on the line</li> </ul>
	<b>Communication and continuous improvement adaptations</b>	<ul style="list-style-type: none"> <li>• Provide daily updates to all employees on latest facts concerning COVID-19 in community, updated policies, and impact on business and employment</li> <li>• Establish team or communication chain to collect questions and concerns from community</li> <li>• Extensive signage and communication on stepped-up cleaning and hygiene practices, with visible air purifiers etc. placed</li> </ul>

1. Aggregation from case studies across different countries and US states. Please consider the list as examples of actions; level of importance to contamination containment have not been assigned and is up to client and state/federal public health regulations and recommendations

# Manufacturing safeguarding measures

**PRELIMINARY**  
**NON-EXHAUSTIVE**

Local governmental rules and decisions should always be followed carefully

v

Employer-led public health interventions	Protection area	Considerations <sup>1</sup>
	<p>Detection and tracing</p>	<ul style="list-style-type: none"> <li>• Check and log daily body temperature (with contactless thermometer) for all employees, visitors, contractors, and personnel entering and reentering facility</li> <li>• Ensure appropriate procedures if employees exceed normal body temperature (e.g., employees get tested/allowed to work remotely/relieved from work for 2 weeks) and set up tracking of tested or sick employees and their point of contacts for contact tracing</li> <li>• Notify health officials of suspected sick employees</li> <li>• Group employees into teams that stick together (work, travel, live, and eat) to facilitate health tracking</li> </ul>
	<p>Personal behavior reinforcement</p>	<ul style="list-style-type: none"> <li>• Use promotional programs around hand washing and other best practices ("Do the 5")</li> </ul>

Last updated 4/21/2020

# Manufacturing safeguarding measures

**PRELIMINARY**  
**NON-EXHAUSTIVE**

Local governmental rules and decisions should always be followed carefully

vi

Protection area	Considerations <sup>1</sup>
<b>Governance and councils</b>	<ul style="list-style-type: none"> <li>• Coordinate with industry associations and union organizations on best practices and capability checklists in reference to WHO, DOH, and CDC guidelines</li> <li>• COVID-19 Inspection service to clear sites before reopening</li> <li>• Local enforcement officers to regularly visit sites, physically or virtually, and fine for safeguard infractions</li> </ul>
<b>Standards and protocols</b>	<ul style="list-style-type: none"> <li>• National COVID-19 standards for Health Inspections, for specific industry/ workplace environment</li> </ul>

Industry-wide safeguards

Last updated 4/21/2020

Local governmental rules and decisions should always be followed carefully

Industry-wide safeguards

Protection area

Governance and councils

Considerations<sup>1</sup>

- Coordinate with industry associations and union organizations on best practices and capability checklists in reference to WHO, DOH, and CDC guidelines
- COVID-19 Inspection service to clear sites before reopening
- Local enforcement officers to regularly visit sites, physically or virtually, and fine for safeguard infractions

Standards and protocols

- National COVID-19 standards for Health Inspections

Last updated 4/21/2020

1. Aggregation from case studies across different countries and US states. Please consider the list as examples of actions; level of importance to contamination containment have not been assigned and is up to client and state/federal public health regulations and recommendations

# Office safeguarding measures - overview

Theme	Safeguarding measures
<b>i</b> Workforce protection	Travel / movement to work (incl. work from home measures) Entry to worksite Employee health policy measures
<b>ii</b> Employee protection	Personal protective equipment Workplace distancing and workstation barriers Sanitization measures Worksite facility conditions Public health knowledge and capability-building
<b>iii</b> Non-employee protection	Social distancing measures Sanitization measures Limitations against exposure to individuals Preventions against material contamination
<b>iv</b> Business process adaptations	Physical workspace adaptations Digital workspace adaptations (incl work from home measures) Operational and productivity process adaptations Communication and continuous improvement adaptations
<b>v</b> Employer-led public health interventions	Detection and tracing Personal behavior reinforcement
<b>vi</b> Industry-wide safeguards	Governance and councils Standards and protocols

**This playbook is broadly applicable to working environments in offices**

- Large corporate office
- Small branch office
- ...

# Office safeguarding measures

**PRELIMINARY**  
**NON-EXHAUSTIVE**

Local governmental rules and decisions should always be followed carefully

ii

Employee protection	Protection area	Considerations <sup>1</sup>
	<b>Personal protective equipment</b>	<ul style="list-style-type: none"> <li>• Common screening protocol; temperature checks, face masks for all professional personnel, gloves in common areas</li> <li>• Requiring personal protective equipment (cloth masks) and gloves when in common spaces</li> </ul>
	<b>Workplace distancing and workstation barriers</b>	<ul style="list-style-type: none"> <li>• Establish barriers between workstations, workstations deep cleaned / sanitized after each day;</li> <li>• Increase hygiene protocols for delivery areas - PPE requirements and enhanced cleaning</li> <li>• Minimize physical presence of non-core workers</li> <li>• Postpone large group training or on-site visits; set up virtual training or on-site visits</li> </ul>
	<b>Sanitization measures</b>	<ul style="list-style-type: none"> <li>• Enhanced sanitization of all common areas</li> <li>• Enhanced sanitization of common touch points (doors, stairwell handles, light switch, elevator switch, etc.)</li> <li>• Procure increased amounts of soap, hand sanitizer, cleaning materials and equipment</li> </ul>
	<b>Worksite facility conditions</b>	<ul style="list-style-type: none"> <li>• Ventilation per OSHA guidance</li> <li>• No-touch trash bins/ waste receptacles</li> </ul>
	<b>Public health knowledge and capability-building</b>	<ul style="list-style-type: none"> <li>• Signage on handwashing, social distancing and what to do if you or a colleague is feeling sick (full list of protocol for separating sick employees)</li> <li>• Use promotional programs around hand washing and other best practices ("Do the 5")</li> <li>• Clear posting of hygiene requirements, testing/monitoring requirements and promotion materials on "stay home" / no handshakes</li> </ul>

Last updated 4/22/2020

**Theme: Employee protection**

# Office safeguarding measures

**PRELIMINARY**  
**NON-EXHAUSTIVE**

Local governmental rules and decisions should always be followed carefully

iii

Protection area	Considerations <sup>1</sup>
<b>Social distancing measures</b>	<ul style="list-style-type: none"> <li>• Density requirements to enable 6 feet of space between all employees or 25-50% office capacity</li> <li>• Limit use of common dining area (e.g. group orders delivered to site, designated seating areas)</li> <li>• Step down protocol for social distancing, staged hours for vulnerable populations</li> <li>• Ensure customers and employees stay at least 6 feet apart</li> </ul>
<b>Sanitization measures</b>	<ul style="list-style-type: none"> <li>• Daily cleaning of office spaces and full cleaning of high-touch areas throughout the day (printing rooms, kitchens, bathrooms, etc.)</li> <li>• Enhanced sanitization of common touch points (doors, stairwell handles, light switch, elevator switch, etc.)</li> </ul>
<b>Limitations against exposure to individuals</b>	<ul style="list-style-type: none"> <li>• Facility must immediately disclose infection to state DOH bodies</li> <li>• Employer and building must immediately report notification of infection, number of infected employees, timing of infection and remediation plan, all staff who came in contact with employee need to be tested, full-deep sanitization required, close building including non-affected offices until all common areas in building are sanitized, require all staff be tested)</li> <li>• Going remote / work from home for teams interacting with infected individual</li> </ul>
<b>Preventions against material contamination</b>	<ul style="list-style-type: none"> <li>• Enhanced hygiene protocols for delivery areas</li> </ul>

Non-employee protection

Last updated 4/22/2020

# Office safeguarding measures

**PRELIMINARY**  
**NON-EXHAUSTIVE**

Local governmental rules and decisions should always be followed carefully

iv

Business process adaptations

## Protection area

## Considerations<sup>1</sup>

### Physical workspace adaptations

- Reduce seating in breakroom / common areas to ensure >6ft physical distance
- Designate rooms to quarantine individuals until health officials are contacted / individual can safely return home or to a health facility, making sure to deep clean after use
- Access to common spaces (kitchens, bathrooms, storage rooms) limited

### Digital workspace adaptations (incl work from home measures)

- Require non-core functions and vulnerable populations to work from home until further notice
- Divided critical function teams with groups alternating work in-office or using satellite sites
- Opt-in model to remote work / telework
- Clear resources, procedures and expectations for remote work; contingency plans for continuity, cross train employees to cover for business essential positions,

### Operational and productivity process adaptations

- Mandatory hand washing every 2 hours, installation of additional hand sanitization and soaps in toilets and common areas
- No overlap between shifts for direct and indirect labor
- Staggered breaks to reduce large group gatherings
- Avoid meetings of more than 5 participants; obligatory face mask during face-to-face meetings

### Communication and continuous improvement adaptations

- Provide daily updates to all employees on latest facts concerning COVID-19 in community, updated policies, and impact on business and employment
- Establish team or communication chain to collect questions and concerns from community
- Extensive signage and communication on stepped-up cleaning and hygiene practices, with visible air purifiers etc. placed

Context & Objectives

Safely back to work

Examples of safe & next work solutions

Industry Examples in Practice

**Appendix: Overview of measures in checklist**

# Description of measures in checklist

## 100 measures are included in the checklist, of which

88 are relevant to all **industries** (not industry specific). Most industry specific measures were collected in the food sector (10 measures), e.g., about packaging and safe delivery.

66 are relevant to all **countries** (not country specific). Most country specific measures were collected in the United States (12 measures)

91 are **reactions to government policies**, with significant variation across countries (e.g., temperature check, distance, usage of app). 32 measures are linked to the government imposed measure of physical distancing

39 are measures the **organization** should undertake (e.g., change shifts). Only 10 measures are within the domain of compliance

Most (38 measures) are **administrative controls** (changing the way people work), followed by engineering controls (29 measures, isolating people from the hazard). Only 7 measures are **elimination** (physically removing the hazard)

Most work situations (e.g., meetings / canteen) can have **several measures**, varying in levels of risk control (e.g., from avoiding meetings to washing hands after every meeting)

# 1 Personal protective equipment (PPE)

1. Measure categorization				2. Measure description					Comments
Type of measure	Industry	Country	COVID Policy and source	Topic name	Measure	Work Situation	Work instructions	Infrastructural requirements	
Personal	All	All	1 - Government policy: keep physical distance (1,5 m, 2 m or 6 ft)	Screens	Install protective screens for staff exposed to customers / visitors	Customers	Install Plexiglas screens where employees need to face visitors or customers to protect them (mandatory)	Creation and acquisition	
Personal	Life Sciences	All	4 - Government policy: maintain hygiene at high level	Provide PPE	Provide PPE in high risk areas	High risk environments	Provide and make employees use gown, mask (surgical or FFP2 if available), gloves, anti-splash eye protection, soap and water (or hand sanitizer). Always ensure the existence of sufficient stocks.	Gown, mask (surgical or FFP2 if available), gloves, anti-splash eye protection, soap and water (or hand sanitizer).	Relevant for Food and Life Sciences
Personal	All and specifically construction	UK	7 - Other policies set by sector/business	Mental health	Free online mental health seminars for employees in need	Mental health	Promote seminars & helpline numbers to employees	Promotion	
Inter-relational	All	All	1 - Government policy: keep physical distance (1,5 m, 2 m or 6 ft)	Meals and breaks	Do not allow face-to-face lunch, and limit time in the breakrooms/canteens	Breaks	Provide easy and clear instruction about meals and breaks (e.g., where employees should sit and for how long they can be in the breakroom/canteen).	Posters in canteens	
Inter-relational	All	All	7 - Other policies set by sector/business	Communication	Send COVID newsletter with protocols to all employees and place banners/signs	All employees	The business communicates all Corona protocol updates in a newsletter to all employees and externals working at the site. The inhouse team communicates to the flex employees. Everyone needs to know about the rules and regulations. Furthermore at every entrance the information letters and banners should give guidance.	Newsletter, banners, signs	
Organizational	All	All	1 - Government policy: keep physical distance (1,5 m, 2 m or 6 ft)	Onboarding & training	Online course COVID-19	COVID briefing	Online course with instructions on the main characteristics of the virus and its associated disease, including: <ul style="list-style-type: none"> <li>• Symptomatology of the disease</li> <li>• Incubation period</li> <li>• Forms of contagion</li> <li>• Prevention measures</li> <li>• Recommendations in case of home isolation</li> </ul>	Computer and internet connection and online training modules	
Organizational	All	All	1 - Government policy: keep physical distance (1,5 m, 2 m or 6 ft)	Onboarding & training	Online course COVID-19	Safety briefing	Online course with instructions on the working safely, including: <ul style="list-style-type: none"> <li>• Rules for the use of masks</li> <li>• Rules and prevention measures in travel</li> <li>• Hand washing technique</li> </ul>	Computer and internet connection and online training modules	

**Local governmental rules and decisions should always be followed carefully**

# 1 Personal protective equipment (PPE)

1. Measure categorization				2. Measure description					Comments
Type of measure	Industry	Country	COVID Policy and source	Topic name	Measure	Work Situation	Work instructions	Infrastructural requirements	
Organizational	Food	All	1 - Government policy: keep physical distance (1,5 m, 2 m or 6 ft)	Distance clothing	Supply all employees with a vest	Warehouse or shop floor	Let employees wear a vest with text: "Please keep a distance of 1.5m"	Vests with text: "Please keep a distance of 1.5m"	
Organizational	Life Sciences	All	3 - Government policy: prevent spread when symptoms or when in risk category	Test suspected infected	Conduct COVID test in suspicious cases	High risk environments	When a suspected case is discovered, perform a covid test to minimize risk in production	COVID test kits	
Organizational	All	All	4 - Government policy: maintain hygiene at high level	Meals and breaks	Install separators in the canteen and lunch rooms	Breaks	Create and install temporary disposable cardboards or plastic separator in lunch rooms and common areas	Creation and acquisition	
Organizational	Food	All	4 - Government policy: maintain hygiene at high level	Extra packaging	Put food products in extra layer of packing	Food products that are packaged (in boxes)	Food products need to be put in an extra plastic bag before put in the boxes	Plastic bags	
Organizational	Food	Nordics: Norway, Sweden, Finland and Denmark	7 - Other policies set by sector/ business	Food safety	Use of protective gloves; hand hygiene; closure of commercial restaurants; ban to come to work if symptoms, special instructions for work space cleaning	Protection	Protective clothing and masks; closure of commercial restaurants (take away and delivery to home/office instead)	Training	set by the FI Food Authority
Organizational	All	All	4 - Government policy: maintain hygiene at high level	Sanitary	Provide hand cleaning opportunities at workplace	Washing hands	All companies should propose a way for employees to easily wash their hand at work and instruct how often employees should do this	Additional cleaners & pop-up handwashing stations across construction sites.	
Organizational	All	United States	7 - Other policies set by sector/ business	Communication	Communicate as frequently as necessary on purpose and changes of measures in effect	All	Communicate as frequently as necessary on purpose and changes of measures in effect		

Local governmental rules and decisions should always be followed carefully

# Administrative controls

1. Measure categorization				2. Measure description						Comments
Type of measure	Industry	Country	COVID Policy and source	Topic name	Measure	Work Situation	Work instructions	Effect measurement	Infrastructural requirements	
Personal	All	All	1 - Government policy: keep physical distance (1,5 m, 2 m or 6 ft)	Individual transport to work	Compensate / reimburse additional travel expenses	Transportation	Branches should negotiate a specific compensation for employees that need to use their car for commuting to work	No infection hazard due to personal contact with third parties	Guideline for reimbursement Invoicing individual cost	
Personal	All	All	1 - Government policy: keep physical distance (1,5 m, 2 m or 6 ft)	Avoid travel peaks	Adopt shift planning to reduce travel peaks	Transportation	Implement rotation shifts to avoid peaks in public transport	No infection hazard due to personal contact with third parties	No infection hazard due to personal contact with third parties	
Personal	All	All	4 - Government policy: maintain hygiene at high level	Working clothes	Avoid sharing of clothing	Sharing of protective gear / clothing	No sharing of working clothes and protective gear. Specific cleaning process at the end of the working assignment to ensure disinfection after usage.	No extra infections caused due to personal contact in the workplace	Process, extra cleaning material and potentially extra clothing	
Personal	All	All	4 - Government policy: maintain hygiene at high level	Payment	Pay with card only, no cash	Payments	Do not accept cash payments Clean payment areas as they are high touch areas	No extra infections caused due to personal contact in the workplace	Ensure digital payment methods are available	
Personal	All	All	3 - Government policy: prevent spread when symptoms or when in risk category	Access tracking	Track presence of all staff and visitors at the site	Access	Tracking should be done for 15 days after entering the site	No extra infections caused due to personal contact in the workplace	Log sheet	Mind legal implications (e.g., data privacy)
Personal	All	All	3 - Government policy: prevent spread when symptoms or when in risk category	Home health check	Measure temperature and fill out questionnaire before entering workplace on a daily basis	Access	Measure temperature at entrance (optional), ask employees to fill in questionnaire at entrance (optional).	No extra infections caused due to personal contact in the workplace	Questionnaire (updated regularly)	
Inter-relational	All	All	1 - Government policy: keep physical distance (1,5 m, 2 m or 6 ft)	Elevators	Limit the number of people in elevators and sanitize elevators regularly	Elevators	Provide clear instructions on physical distancing in elevators (e.g., entering elevator one by one, limited number of people in elevator), and provide paper tissues to press elevator buttons	No extra infections caused due to personal contact in the workplace	Process, paper tissues	

**Local governmental rules and decisions should always be followed carefully**

# Administrative controls

1. Measure categorization				2. Measure description					Comments
Type of measure	Industry	Country	COVID Policy and source	Topic name	Measure	Work Situation	Work instructions	Infrastructural requirements	
Inter-relational	All	All	1 - Government policy: keep physical distance (1,5 m, 2 m or 6 ft)	Meetings	Provide guidelines for meetings (limit frequency and number of attendees)	Meetings	Easy and clear instruction regarding frequency and number of people attending meetings	n/a	
Inter-relational	Food	Belgium	1 - Government policy: keep physical distance (1,5 m, 2 m or 6 ft)	Time and capacity limits	Limit number of clients in each area and time of stay	Customers	Respect 1 client per 15m <sup>2</sup> , with a maximum stay of 30 minutes per client	Markings on floor, timers, signs	
Inter-relational	All and specifically food	Netherlands	1 - Government policy: keep physical distance (1,5 m, 2 m or 6 ft)	Walking route	Create wider footpaths & fixed walking directions	Movement	Inform all employees to maintain fixed walking distance, indicated with arrows on footpaths	Arrows on the floor and barrier tape	
Inter-relational	Food	Netherlands	1 - Government policy: keep physical distance (1,5 m, 2 m or 6 ft)	Communication	Provide headsets for communication	(retail) shop floor	Employees who have to walk the floor to resupply the shelves must use headsets to communicate	Ensure enough headsets are available	Administrative controls
Inter-relational	All	All	1 - Government policy: keep physical distance (1,5 m, 2 m or 6 ft)	New employees	Stop inflow of new employees	New employees	No new employees are allowed to start working to protect existing population		Check if feasible
Inter-relational	Food	Spain	4 - Government policy: maintain hygiene at high level	Visitors	Apply extreme hygiene and additional controls for visitors	Visits	Extreme hygiene and disinfection when entering and leaving for all visitors. Examples are: - Temperature control before accessing - Use of mask at distances less than 2m with anyone at the facilities - Disinfect hands frequently during the stay in the facilities	Protocol for visitors	
Inter-relational	All	All	7 - Other policies set by sector/ business	HR	Fill new COVID vacancies	New roles	Fill up key (or unpopular) roles currently vacant and therefore damaging overall productivity. Instruct local management that work ceases until specific roles are filled in. As an example there are newly created jobs such as toilet attendants, testers, and temp screeners on construction sites. Adjust payrates upwards temporarily to encourage employees to take roles.	Internal vacancies list	

**Local governmental rules and decisions should always be followed carefully**

# Administrative controls

1. Measure categorization				2. Measure description				Comments	
Type of measure	Industry	Country	COVID Policy and source	Topic name	Measure	Work Situation	Work instructions	Infrastructural requirements	
Inter-relational	All and specifically construction	UK	7 - Other policies set by sector/business	Management	Create a central talent pool of qualified and inducted managers who are familiar with the projects and keep them on the bench	Management	In the event of absence due to illness/caring/isolating immediately second in Manager from the central pool to maintain safety/productivity on site	Build and engage talent pool	Administrative controls
Organizational	Construction	All	2 - Government policy: reduce contact between people	Off-site work locations	Request express consent of occupants/tenants/users for access	Private individuals	Employees must ask whether client or individuals in the client's household have health problems in relation to COVID (coughing, sore throat, fever) or if they belong to the category of vulnerable persons. Client decides whether they give access to their home. Employee may ask for proper ventilation of the house and to make the installation easily accessible.	Form to request approval of client	
Organizational	All	All	2 - Government policy: reduce contact between people	Online communication	Post relevant information on multiple locations	Information requirements	Put the shift planning and other relevant notifications in every area (not only in one department). Alternative is to use a digital tool (app) to communicate planning	Multiple notices boards or digital communication tool	
Organizational	All	Spain	3 - Government policy: prevent spread when symptoms or when in risk category	High risk groups	Contact the employees in vulnerable groups and issue a report to authorities	All	SPRL health service must evaluate the presence of especially sensitive employees, establish the nature of special sensitivity of the employee and issue a report on prevention, adaptation and protection measures. The employees will go to the Public Health Service with the issued report to process the discharge due to special vulnerability.	Form for vulnerable groups	Administrative controls
Organizational	All	All	4 - Government policy: maintain hygiene at high level	Meals and breaks	Limit the number of people in common areas	Breaks	Set up lunch shifts (by teams) to guaranty physical distancing during lunch time our breaks	Rotation process	
Organizational	All	All	4 - Government policy: maintain hygiene at high level	Access control	Require external vendors to wear a face mask	Delivery or pick up by third parties	All external suppliers should wear a face mask	Process and signs as entry points	

**Local governmental rules and decisions should always be followed carefully**

# Administrative controls

1. Measure categorization				2. Measure description					Comments
Type of measure	Industry	Country	COVID Policy and source	Topic name	Measure	Work Situation	Work instructions	Infrastructural requirements	
Organizational	All	United States	4 - Government policy: maintain hygiene at high level	Shared Items	Discontinue use of shared items (e.g., pens, phones)	Materials	Discontinue use of shared items (e.g., pens, phones)	Provide sufficient and suitable rubbish bins and cleaning supplies	
Organizational	All	United States	4 - Government policy: maintain hygiene at high level	Handwashing breaks	Permit handwashing breaks	All	Permit handwashing breaks as often as necessary (e.g., every 60 minutes)	Potentially additional cleaners & pop-up handwashing stations across construction sites	
Organizational	All	United States	4 - Government policy: maintain hygiene at high level	Disinfecting wipes	Supply employees with disinfecting wipes for workstations	All	Supply workers with disinfecting wipes for workstations	Disinfecting wipes	
Organizational	All	United States	4 - Government policy: maintain hygiene at high level	Air Exchanges	Increase air exchanges per CDC guidance	All	Make sure areas receive numerous air changes per CDC guidance	Engineering controls	
Organizational	All	All	4 - Government policy: maintain hygiene at high level	Cleaning frequency	Enhance regular cleaning procedures and increase intensity of garbage collection	Materials	Clean all touch points regularly, including: Taps and washing facilities Toilet flush and seats Door handles and push plates Hand rails on staircases and corridors Lift and hoist controls Machinery and equipment controls Food preparation and eating surfaces Telephone equipment Key boards, photocopiers and other office equipment	Provide sufficient and suitable rubbish bins and cleaning supplies	
Organizational	All	Nordics: Norway, Sweden, Finland and Denmark	6 - Government policy: avoid cross border travel and/or quarantine after travel abroad	Exception for import of foreign workforce	New workforce may enter the country if the work is critical	All	Exception to a ban to guarantee the security of critical supply	Engineering controls	
Organizational	Food	Nordics: Norway, Sweden, Finland and Denmark	6 - Government policy: avoid cross border travel and/or quarantine after travel abroad	Exception for quarantine	Employees arriving from abroad to food-manufacturing	Exception	Exception for quarantine of employees arriving from abroad for food-manufacturing	Engineering controls	Measure has to be verified

**Local governmental rules and decisions should always be followed carefully**

# Administrative controls

1. Measure categorization				2. Measure description					Comments
Type of measure	Industry	Country	COVID Policy and source	Topic name	Measure	Work Situation	Work instructions	Infrastructural requirements	
Organizational	All	All	7 - Other policies set by sector/ business	HR	Take care of well-being of all employees	Mental health	Examples of good practices are: Employees in production and the distribution center get a 'corona bonus' as a token of appreciation for commitment in this hectic time All employees have free access to psychological services and virtual gym Pay extra days for employees with children	Rewards & benefits of HR department	
Organizational	All	All	1 - Government policy: keep physical distance (1,5 m, 2 m or 6 ft)	Timing and shifts schedule	Change shifts schedule	Shifts	All companies should work with time shifts to avoid having too many employees working at the same time at the same location. This is also important to avoid peaks in public transportation	n/a	
Machine	All and specifically food	Netherlands	1 - Government policy: keep physical distance (1,5 m, 2 m or 6 ft)	Production lines	Change the production line set up to enforce social distance	Production lines	Different set up of production lines with a minimum of 1,5 meters between workstations. Clearly mark with crosses where people are allowed to stand.	Possibly reduce or remove production lines	
Machine	All	All	4 - Government policy: maintain hygiene at high level	Rooms & desks	Avoid desk sharing without cleaning in between	Office and other desks	No desk sharing without cleaning process	Cleaning material	
Machine	All and specifically construction	All	4 - Government policy: maintain hygiene at high level	Equipment hygiene	Set handwashing and cleaning procedures for equipment	Machinery	Operators must use additional 'pop-up' handwashing stations. Extra handwashing procedures before entering and when leaving cab & additional daily machine cab cleaning. Ventilation inside machines or enclosed equipment must be increased. Equipment must be thoroughly cleaned after usage, single use PPE must be thrown away.	Additional cleaners & pop-up handwashing stations across construction sites	
Compliance	All	All	1 - Government policy: keep physical distance (1,5 m, 2 m or 6 ft)	Monitoring	Set up a monitoring governance	All	Develop a monitor success plan to monitor the success of implemented protocols	Staff, system and policies	

Local governmental rules and decisions should always be followed carefully

2

# Administrative controls

1. Measure categorization				2. Measure description					Comments
Type of measure	Industry	Country	COVID Policy and source	Topic name	Measure	Work Situation	Work instructions	Infrastructural requirements	
Compliance	All	United States	3 - Government policy: prevent spread when symptoms or when in risk category	Investigation	Investigate any potential COVID-19 cases and take prompt and appropriate remedial action	All	Investigate any potential COVID-19 cases and take prompt and appropriate remedial action	Engineering controls	
Compliance	All	Other - please specify in comments	3 - Government policy: prevent spread when symptoms or when in risk category	Communication	Establish H&S guidelines for employees and communicate to clients	All	<i>[Appoint H&amp;S team and collect H&amp;S effect of measures relevant for sector/business/company]</i>	H&S guideline updated with COVID measures	Applicable for Netherlands and Belgium
Compliance	All	Other - please specify in comments	3 - Government policy: prevent spread when symptoms or when in risk category	Sickness reporting	Verify employee data of reported sickness, verify and categorize correctly	Questionnaire	Send out H&S questionnaires to gather data of COVID situations, following GDPR guidelines and make a table for each employee situation, which clarifies to report sick (y/n) and what employer must do. Unable to work because of health complaints due to the coronavirus.: report sick Able to work, but can't do regular duties due to illness or disability: report sick, facilitate other work from home Able to work, but not allowed to work because of government policy: do not report sick, facilitate working at home if possible Able to work, but in isolation / quarantine: do not report sick, facilitate working at home if possible Able to work, but doesn't want to come for fear of contamination: do not report sick, use normal leave arrangements such as holidays Able to work, but must take care of a sick family member or other close person: do not report sick, use leave arrangements such as short-term care leave Intends to report sick to prevent damage to organization or afraid of getting fired: do not report sick, appeal on government subsidies/regulation	HR database of workforce includes new COVID insights	Applicable for EU

Local governmental rules and decisions should always be followed carefully

Returning to the workplace and reshaping a new future of work is key to ensuring the health and wellbeing of workers and a strong economic recovery.

The “Safely Back to Work” Alliance spearheaded by Randstad, The Adecco Group and ManpowerGroup in March 2020 has successfully expanded its reach and membership and is now being led by our global industry association, the World Employment Confederation (WEC).

As leader of this Alliance, WEC will continue to engage country federations and private sector members to support a safe return to work for workers and organizations globally, reinforcing the critical role of the private employment services sector in driving healthy resilient labor markets and economic recovery for countries, organizations and individuals alike in a post-Covid 19 environment.
